

Continuing Dental Education

December 4, 2017

From the Director's Desk

Dear Louisiana Dental Hygienists:

Thought About Getting a Permit to Administer Local Anesthesia? If so, LSU Continuing Dental Education has 20 seats remaining in its new, shorter, lower-priced, and more convenient Local Anesthesia Training Program for Dental Hygienists. If you register for the program this month, you have sufficient time to complete the program and obtain your local anesthesia permit—all before the end of June 2018!

Plus, you can complete all the required injections during the live sessions. **The deadline for registration is April 20, 2018.** However, **we recommend that you register between now and March 20, 2018** to give you time to purchase and review the course home study materials.

For questions and registrations: Call the CE office at **(504) 941-8193** or click here for more detailed course information: [Local Anesthesia Training Program 2018 at LSU School of Dentistry](#).

Thank you,

A handwritten signature in blue ink that reads "Robert M. Leaman".

Robert (Bob) M. Leaman, MBA
